“The Global product combines good quality, design and value. It blends well within a high-design environment.”

- Kenneth Bergman, General Council, AdvancED

AdvancED serves more than 27,000 public and private school districts across the United States and has a presence in 69 countries that educate over 15 million students, making it the world's largest education community.

An organization that relies on 18,000 volunteers and 200 staff members to maintain its position as a powerful leader in

the world of education, AdvancED recently renovated its headquarters in Alpharetta, Georgia. The new office space now provides these hard-working individuals with an office environment in which they are better equipped to deliver high-quality school improvement and accreditation services while pushing for excellence and continuous improvement.

AdvancED selected Global to furnish their office for numerous reasons including: the size of the company, the responsiveness of the Global Team, the ability to provide cost-effective design solutions accompanied by a strong warranty, and Global's commitment to protecting the environment.
