

Aubrey Organics, Tampa, FL

▲ Global Zira desking in Tiger Maple (TMP) and Avant Honey (AWH) shown with Aspen and Islands seating.

“Love the Global furniture. It’s functional, yet very appealing to look at.”

- Priscilla DeFrancesco, CFO, Aubrey Organics, Inc.

Aubrey Organics operates under the philosophy that how a company conducts its business is as important as what it sells. With that in mind, Aubrey Organics turned to Global - The Total Office as a partner to provide office furnishings to their newly renovated Tampa, FL offices.

Global Zira desking was chosen for its great variety of color/material styles in a product line that is well constructed. In addition, Aubrey Organics felt that the customer care they received while working with Global

on this project was very professional and extremely helpful. Employees were knowledgeable about the product and stood behind the products delivered. The end result is that the Global furniture made the inside of their new offices look even more beautiful than they had imagined.
